Re: Application # 09/938,014

Date: November 2, 2005

☐ Urgent☐ For Review☒ Please Comment☒ Please Reply

Per your request, please find enclosed my original response to initial office action on application #09/938,014, received by USPTO on April 25, 2005.

Note: To avoid confusion, I've updated my address and phone numbers in the enclosed response letter.

Also, a copy of the return receipt, proving my original response was received by USPTO on April 25, 2005, is included with the enclosed copy of my original response.

Please give me call me at (403) 265 7353 to confirm whether this response is satisfactory for you to proceed with the examination of the application #09/938,014 (its first group of claims) and whether my response has now been properly filed.

Best regards,

Mark Sandstrom

CERTIFIED MAIL

USPTC Examiner Michael J. Moore:

RE: Office communication dated April 15, 2005 regarding utility application # 09/838,014

The undersigned applicant elects the invention defined by claims 1-8, i.e. Group I, to be examined first, with restriction for examination purposes as indicated in the Office communication cited above.

Please call me at 415-928-2413, or 415-699-6907 (mobile) to confirm whether this response is satisfactory, or if any clarification or additional information is needed.

Best regards,

Mark Sandstrom
Inventor and applicant for patent
